FOREWORD

This publication sets forth all of the requests made by the Hawaii State Legislature during the Regular Session of 2013 to agencies and officials of the federal, state and county governments and of quasi-public and private agencies. These requests are contained in acts enacted by the Legislature or bills that have been passed but which have yet to be approved by the Governor. These acts or bills include specific requests for submission of information back to the Legislature, excluding annual and other reports requested on an indefinite basis. These requests are also contained in resolutions adopted by the Senate or House of Representatives or by the whole Legislature. Dates by which reports and other responses are expected are indicated when specifically set by the Legislature. The names of the agencies involved in the conduct of a study or the execution of a request are underscored.

For the reader's convenience these legislative requests are also grouped together by agencies (see agency index); as well as by subject matter (see subject index).

Standard abbreviations used in the text are:

SB	-	Senate Bill
SCR	-	Senate Concurrent Resolution
SD	-	Senate Draft
SR	-	Senate Resolution
SSCR	-	Senate Standing Committee Report
HB	-	House Bill
HCR	-	House Concurrent Resolution
HD	-	House Draft
HR	-	House Resolution
HSCR	-	House Standing Committee Report
CD	-	Conference Draft
CCR	-	Conference Committee Report

An asterisk (*) preceding a measure number denotes that there are minor differences between similar measures that are grouped together.

- (1) Examine and identify barriers to quality care for stroke patients;
- (2) Review and assess national models, best practices, guidelines, and standards of stroke care, comparative to Hawaii's needs;
- (3) Update information regarding the stroke plan in the Hawaii Plan for the Prevention of Heart Disease and Stroke, issued by the Department of Health in November 2011, including a needs assessment that, in particular, assures that Neighbor Island issues are adequately addressed;
- (4) Focus on ensuring that patients at risk of stroke are provided care, at minimum, at a stroke support facility based on criteria developed and used by the American Heart Association, American Stroke Association, or Brain Attack Coalition;
- (5) Use uniform pre-hospital protocols for the assessment of stroke to alert appropriate hospitals to prepare for potential acute stroke patients prior to their arrival at the hospital;
- (6) Seek alignment with the State's Healthcare Transformation priorities, including the requirements of the Patient Protection and Affordable Care Act and federal meaningful use of health information technology priorities;
- (7) Include requirements for the measuring, reporting, and monitoring of stroke care performance through data collection;
- (8) Establish a statewide stroke database and registry in which all hospitals and healthcare facilities can participate and consider the feasibility of integrating the

- data registry component through American Heart Association or American Stroke Association super-user licensure for the Department of Health; and
- (9) Recommend protocols regarding direct transportation of stroke patients to appropriate hospitals by emergency medical personnel.

Further requests the task force to propose legislation necessary to support Hawaii's stroke care continuum.

Resolves that the statewide stroke database and registry include performance measurements obtained using a standardized stroke measure set containing data that is consistent with nationally-recognized guidelines on the treatment of individuals with confirmed stroke within the State, such as the American Heart Association's "Get With The Guidelines – Stroke" or The Joint Commission's "Stroke Performance Measurement Implementation Guide".

Requests the task force is requested to submit:

- (1) An initial report to the Legislature by December 31, 2013; and
- (2) A final report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2015, of the task force's actions taken and progress made, including findings, recommendations, and any proposed legislation and recommended funding levels, to establish a stroke system of care that includes the creation of a statewide stroke database and registry.
